

## RGB observations

Global visual context

**Visual encoder**

**Image tokens**

**PACT**

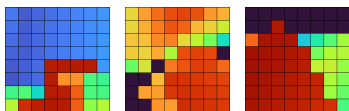

Multimodal transformer

**Action chunk**

Arm + gripper commands

Execute, then query again

## Whole-body proximity

40 sensors  $\times$  8  $\times$  8 ranges

**Temporal encoder**

Shared across sensors

**Sensor tokens**

One per sensor

**Joint state**

Arm + gripper

Live RGB and proximity at each policy query
